## ERDENE RESOURCE DEVELOPMENT ANNOUNCES NEW GOLD DISCOVERY IN DARK HORSE GOLD PROSPECT

Erdene Resource Development Corporation (MSE:ERDN) announced the final drill results from its 2020 Dark Horse gold prospect and to announce follow up exploration work on this exciting new prospect.

"We have engaged a team of experts to improve our understanding of the discovery and design a fulsome exploration program to further define this exciting new prospect," said Peter Akerley. "We plan to launch a very active 2021 exploration campaign during Q1 and will provide updates when the program is finalized."

This new discovery is located within a relatively underexplored region of the Dark Horse prospect, approximately one kilometre west of the high-grade interval reported previously, 30.6 g/t gold over 1 metre, in AAD-48 (see October 26, 2020 release). The results reported today are for hole AAD-61, located mid-way between previously reported (see January 6, 2021 release) holes AAD-51 and AAD-57, approximately 500 metres from each, with AAD-58 a further 180 metres south of AAD-57.
